

Rapid White Triple Action Whitening Booster Gel

- Simply add to any toothpaste
- Dual enzyme whitening technology
- Enamel-friendly formula

Rapid White's Triple Action Tooth Whitening Booster Gel is the ideal solution to help whiten your teeth and prevent staining caused by red wine, coffee, tea, smoking and ageing. No mess, no fuss!

This advanced formulation contains:

- A unique blend of PVP and Sodium Tripolyphosphate (USA patent) which has been proven to whiten teeth and prevent staining.
- Dual enzyme whitening technology to help whiten teeth.
- A tartar control agent to help remove stains on and inbetween teeth.
- A mild peppermint flavour to complement most toothpastes.
- No peroxide and is safe for sensitive teeth.

Instructions: FOR ADULT USE ONLY

Simply squeeze a pea-sized amount of Booster Gel on top of your favourite toothpaste and brush as normal.

Hints and tips:

- Use this product with Rapid White Daily Whitening Toothpaste to maximise the whitening effect.
- For ease of use, you may prefer to squeeze a pea-sized amount of Booster Gel onto your brush before the toothpaste.
- This Booster Gel can be used on its own for additional whitening benefits, but it should not replace your normal daily toothpaste regime.
- Suitable for both manual and electric toothbrushes.
- Store tube upright with cap facing down.
- If Booster Gel builds up on toothbrush or tube nozzle, rinse off in water.

Pack contents:

Whitening Booster Gel 75ml.
